

The Market Place for Progressive Richmond

To the Men Who Buy and Make Roofs

The Roof

A roof that leaks—that does not protect the buildings—is the most costly roof you could get on your house!

Besides requiring repairs almost constantly, it is the cause of heavy damage to the building it covers. Thus you have the most powerful reason for using G. M. Co.'s Pearl I. C. Old Style Redipped Roofing Tin.

YOU
CAN'T PUT

G. M. Co.'s
Pearl I. C. Old
Style Redipped
Roofing Tin

to too hard a test. It is
Best—It Bears Our
Trade-Mark.

Tinners

The men who know good roofing material and are always anxious to turn out satisfactory work give G. M. Co.'s Pearl I. C. Old Style Redipped Roofing their strong indorsement.

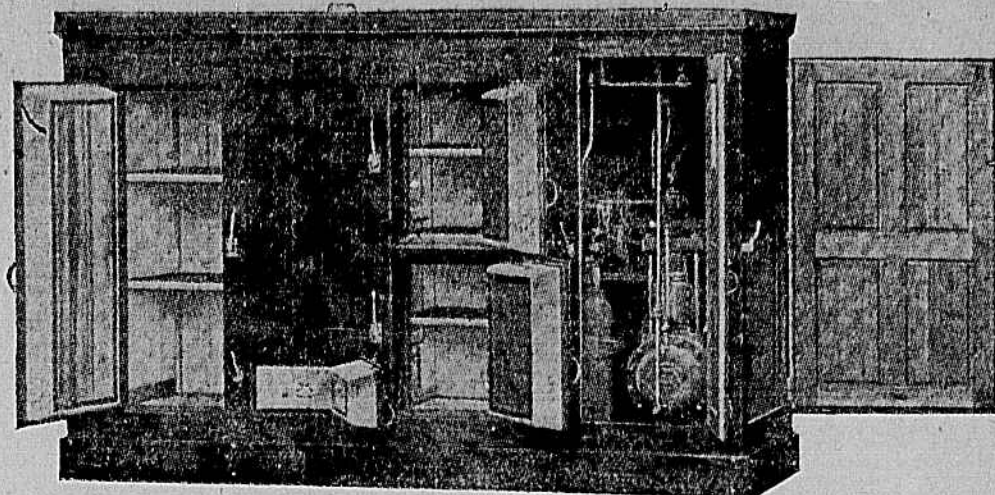

Co-operate with your tinner—insist that he use a roofing tin that you are sure about. It is reasonable in price.

A Good Agent

Should at first glance challenge respectful and thoughtful consideration.

Some salesmen look good, though on close inspection you find there's nothing to commend them but the looks.

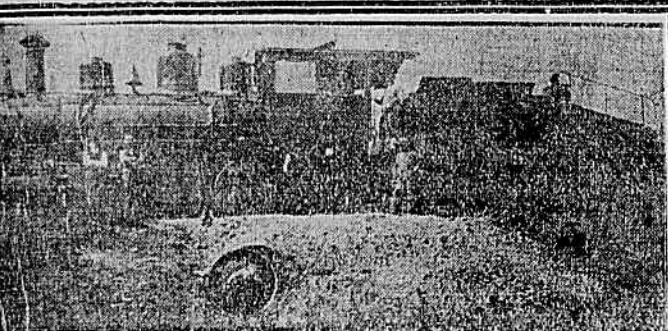

It is not enough that an advertisement be attractively designed, well displayed and properly placed. There must be a combination of reasonable statement, forceful argument and convincing logic, and it must be printed in a medium that will lend the weight of prestige to that of a wide circulation, in order to guarantee the best results.

We invite you to inspect The Brunswick Household Ice Making and Refrigerating Machine and Hygienic Ice-Making and Sanitary Refrigerator for the Home, now installed and operating at our store, Nos. 8 and 10 South Ninth street.

Electric Construction Co. of Va.

MACHINERY AND SUPPLY DEPARTMENT.

Corrugated Road Culverts Bear Any Load

Corrugated Galvanized Ingot Iron Road Culverts are rapidly taking the place of the old-style culverts. They are of pure INGOT IRON, and can't rust. They are corrugated, and bear any weight. They last for fifty years. Need no repairs. For county roads, city streets and railroads.
